

## **Help Your Children Stay Head Lice Free**

Read on to find out why the Rosemary Repel Hair Care System is a favorite of Moms, school nurses and daycare center owners around the country.

Don't wait for the letter home from school saying there is a lice outbreak in your child's class. By using the Rosemary Repel products, you can help protect your kids from missing days of school due to lice. Using all natural oils of rosemary, tea tree, lemongrass, citronella and geranium we have developed an organic line of hair care that has been shown to prevent lice from attaching to the hair shaft.

Our products work best when layered onto the hair. We recommend using the Rosemary Repel Shampoo and Rosemary Repel Creme Conditioner at night every few days – remember lice like clean hair not dirty so do not wash each day! Then use the spray and gel each morning. Spray the back of the neck, behind ears, part lines, and then add the Rosemary Repel Gel. Make sure to get the underneath layers of the hair, too.

Our products are gentle and safe to use everyday for the entire family.

If your child already has "nits" don't forget to read about Lice Good-Bye. This is a revolutionary new product that dissolves "nit glue" to help remove nits gently and completely. Contains no chemicals so its safe for immediate repeated use.
